

# Medium Voltage Switchgear

AVAILABLE FROM  
NEPEAN POWER

NEPEAN Power is a proven leader in the supply and manufacture of quality engineered solutions, products and technologies. Established in 1994, through the commitment of our dedicated team we have become a supplier of choice.

## High Voltage - MV Switchgear

NEPEAN Power's Medium Voltage Switchgear, including section circuit breakers, switchboards and high tension ends, is designed using the latest technology and software in design development allowing our solutions to be the highly innovative and safe.

NEPEAN Power's switchgear is fully tested prior to delivery to our client's worksite. NEPEAN Power's testing facilities ensure the finished product is safe and fully compliant with the Australian and Mining Standards.

## Benefits

NEPEAN Power's switchgear enclosures are manufactured from stainless steel (or mild steel on request) and incorporates viewing windows for ease of physical monitoring.

The switchgear is manufactured to include a heavy duty galvanised skid base that grants to user ease of movement.

Typical NEPEAN Power MV Switchgear includes:

- Ausproof adapters
- HV circuit breaker
- Isolation switch
- Earthing switch
- Padlocking facilities
- Transformer
- Protection relay
- Fault driven power supply
- Earth leakage protection system
- Flag relays
- External switched socket outlet
- External lighting
- NER
- Load centre and ELCB's
- Anti condensation heater and thermistor
- Voltmeter
- Control circuit breakers and associated EL protection
